

Hello, please follow these directions in order to access Planet Turtle which is an interactive **math skill builder**.

1. Go to [www.planetturtle.com](http://www.planetturtle.com). You should see what is below

2. Type in your Player Name and Password. You should then see a turtle on a log walking while it is loading.
3. Once in planet turtle you will be able to move your turtle by clicking on the screen where you would like your turtle to travel. Your turtle will travel in straight line paths, and cannot walk through or over objects in its way. If you click on “glowing fireflies” you can play that challenge. If you click to arrows, you can enter different worlds.

4. If you click on your turtle you can customize to create your own unique character.

**Have fun and Enjoy!**
