

Internet Use Consent Form

I understand that students may have access to personal computers in the Willoughby-Eastlake City Schools, and that the schools try to prevent students from accessing information I might consider objectionable. I also understand that it is impossible to give an absolute guarantee that students will not access objectionable information. However, I do hereby grant permission for my child to access electronic information sources, including computer networks outside the school district. I understand that, if at any time I believe my child has accessed information I deem objectionable, I should so inform the school, and may revoke this permission.
