

WHAT IS *NCI*?

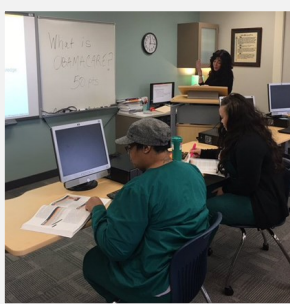

Remember the old Kennedy building behind North High School? Kennedy has been renovated and is now **NCI** - the **Northern Career Institute**! Did you know that Willoughby-Eastlake has successfully run an adult Licensed Practical Nursing program for over 50 years? Did you know that this program brings revenue to the district?

The School of Practical Nursing is expanding on their success to bring increased workforce training programs to **NCI**. This fall, in addition to Practical Nursing, **NCI** will offer Medical Billing and Coding and Medical Assisting. Once the new programs are launched, **NCI** is also planning to add: Physical Therapist Assistant, State Tested Nurse Assistant (STNA), Bridge Licensed Practical Nurse (LPN) to Registered Nurse (RN), and Community Health Worker. As a free service to the community, NCI will begin offering community education classes covering topics such as reading your medical bills and understanding your healthcare provider.

The district has acquired a new building on Euclid Avenue, which will be the home of a second **NCI** campus. During the 2016 - 2017 school year, **NCI-Willoughby Campus** will house programs in the trades, including but not limited to Welding, Auto Collision, Auto Services and Cosmetology.

With the addition of new programs and a new building on Euclid Avenue, **NCI** will strive to help students identify with a school, not just a program. The two campuses will house the high school career/technical programs and bring students a “college” feel, while attending programs on a postsecondary campus. If you are an adult interested in learning more about programming, call 440-283-4300.
