Willoughby-Eastlake School District - Department of Curriculum, Instruction, & Assessment

 <p>W-E Schools Student Google Account</p> <p>All student Google Email Accounts follow the pattern shown</p>	<p>Username: First Five Letters of Last Name + Period + two-digit day of birth + last 3 digits of student id + @weststudents.org Sample: smith.08345@weststudents.org Last Name: Smith Birthday: 8th day of the month... 08 Student ID: 12345</p> <p>Password: Student ID + Student ID (type Student ID twice) Sample: 1234512345</p>	
 <p>Logging into a Chromebook and Clever</p>	<p>If you are using a school or personal Chromebook, follow these login instructions to use the Chromebook and to access Clever. Don't forget to connect your Chromebook to your Wifi!</p>	<p>PK- Grade 3 Login Instructions</p> <p>Grades 4-12 Login Instructions</p>
<p>Logging into a Personal Device and Accessing Clever</p>	<p>You may access Clever on a personal desktop or laptop through the District's website.</p>	<p>Logging into a Personal Device and Accessing Clever</p>
 <p>Clever</p>	<p>All students, K-12, will continue to use Clever for their personalized single sign-on (SSO) portal, which they access using their school Google account. Clever allows students to access most of their online programs and resources from one main page rather than logging into many websites or many different logins and passwords. To login into Clever, see the directions for logging into the Chromebook or personal device.</p>	<p>Video: What is Clever?</p>

 <p>Schoology Parent Login</p>	<p>The District is using Schoology instead of Google Classroom this year because it has many more features that will help everyone. Here's an overview.</p> <p>Video: A Parent's View of Schoology</p> <p>Video: Differences Between Parent and Student Accounts</p>	<p>Teachers will provide parents with an access code in the next couple of weeks in order to set up their parent accounts after they have their student accounts established.</p> <p>You will receive one access code from your child's teacher so you can sign up.</p> <p>Parents - How to Sign Up For Your Schoology Account</p>
 <p>Schoology Student Login</p>	<p>Students will access Schoology daily when participating in Virtual learning. For students attending school in-person, the teachers will also use Schoology with students to ensure that they are ready if they have to switch to remote learning in the event of classroom or building closures.</p>	<p>Logging Into Schoology as a Student</p>
 <p>Edmentum is sometimes referred to as PLATO</p>	<p>Students in grades 6 - 12 will log into Edmentum for some of their courses. Teachers will use Edmentum materials in class for their instruction. Students can access instructional materials for assignments, and watch tutorials as a refresher for what they learned in class, or to review concepts prior to a test.</p>	<p>Teachers will assign courses to students. The students will login to Edmentum through Clever. Login to Clever, then click on the Edmentum App. It's as easy as that!</p> <p>There is no parent portal for Edmentum courseware. This is a student resource.</p>
 <p>Edmentum Exact Path</p>	<p>Exact Path can be used by students in grades K-12. Students may take a diagnostic test or teachers can assign lessons. Students will work on skills in math, reading and English Language Arts in their own personalized learning path. For students in grades K-5, this replaced COMPASS.</p>	<p>Teachers will show students how to login when the system is all set up. In the meantime, watch this video so you can see how it will be helpful for students.</p> <p>Exact Path Overview for Parents</p>
